

PROJECT DESIGN PHASE II
DATA FLOW DIAGRAM AND USER STORIES
Personal Assistance For Seniors Who Are Self-Reliant

Data flow diagrams :

- DFD is the abbreviation for Data Flow Diagram
- The flow of data of a system or a process is represented by DFD.
- It also gives insight into the inputs and outputs of each entity and the process itself
- DFD does not have control flow and no loops or decision rules are present
- Specific operations depending on the type of data can be explained by a flowchart
